Part II.
SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

Discussions of allowable subject matter of claim 1, specifically the pre-load formed by one of the surfaces having a dual-gradient profile as claimed took place. The examiner expressed that the drawings show only the surface of the actuating member having the dual-gradient profile as claimed and not the surface of the lever. Applicant expressed that the claimed subject matter is shown in the drawings and furthermore is disclosed in the specification such that one of ordinary skill in the art would be enabled to make the device with one of the surfaces having the profile as claimed, but the applicant agreed to submit drawing showing the lever having the dual-gradient profile. Disclosure of one of the surfaces (lever or actuating member) having the profile is supported in the original disclosure. The examiner also placed a phone call on 4/14/10 to discuss minor changes to the abstract to conform to all rules with regards to abstract length and appropriate language.

Part III.

- ☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
